## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 2-5, 8-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Pomeranz et al (US Pat# 5,882,346).

Pomeranz discloses a shapable catheter using an exchangeable core that includes a moldable sheath (10) with a lumen (28). The sheath has a port (30). This distal portion of the sheath is made from a different material that has both different stiffness and different moldability from the proximal portion (see 4:36+ and 4:51-60). The sheath can be deployed in a body cavity. A core wire 12 is inserted or incorporated into the lumen (28) to impart a selective shape to the distal end of the sheath.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Pomeranz.

Art Unit: 3763

Pomeranz meets the claim limitations as described above but fails to include a sealing valve coupled to the sheath to seal the lumen. At the time of the invention, it would have been obvious to incorporate a valve into the port (30) of Pomeranz. Hemostatic valves are well known in the catheter art and are commonly used to prevent the inner lumen of the catheter from having contact with the outside atmosphere. They are typically used to prevent the inner lumen from potential contamination of bacteria. Hence, the motivation for incorporating the port would have been to enhance the safety of the device to the patient to prevent infection during use.

*Allowable Subject Matter*

Claims 29-32, 37-41, 53, 55-56, 58-60, 70-75 and 90-91 are allowed.

*Conclusion*

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3763

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
